

March 24, 2020

Dear Bearcat Students, Parents and Guardians:

The current school closure is a very difficult situation, and we miss all of our students. The Bearcat community is special, and we miss our shared work with learning, leadership activities, performance, athletics, and other traditions that spring brings. We look forward to the time when our halls are again filled with student energy. Please know that our staff cares deeply about you, and that we are all very sorry about the impact that this is having on students and families.

We also want our seniors to know that we recognize this is a special time for you, and that you are impacted by the loss of routines and activities that are long-awaited Bearcat opportunities and traditions for graduates. Seniors, we admire the way you are stepping up as role models for the students in grades 9 - 11, showing them how to face a tough situation and get through it one day at a time. Senior leadership has been a great asset in every aspect of our high school life; CCR Block, classrooms, teams, and leadership. We appreciate you seniors. We hope to be back together celebrating your K-12 story soon!

Thanks to your patience in our first days of closure, the district has been able to address the issue of food service, support services, and individual and collective safety in doing our parts to lessen the spread of Covid-19. Everybody's health and well-being is our first priority. Continue to stay safe and support your own, and your family's health during this time. Routines and rest are both important at times like this. This week our district and staff are moving forward so that we can provide all students access to instruction soon. Please continue to check your email for information.

We can't say it enough. We miss you! We look forward to coming together again, and we hope that is soon!

Sincerely,

Bob Walters
Principal
